1	We support policies such as CRV 2 and CRV 3 which seek to protect and enhance cycleways, footpaths and visitor access subject to no unacceptable impacts.	2/20/2017 8:59 AM
2	CRV1 Rural recreation & sport, including Woodlands needs further info - rather vague need to ensure permanence sport facilities CRV2 Footpaths, cycleways, bridleways Agree CRV3 Visitor access Agree.	2/17/2017 9:33 PM
3	Agree	2/17/2017 7:33 PM
4	Agree	2/17/2017 7:19 PM
5	Castor hanglands and the surrounding area offer unique leisure opportunities to people seeking to connect with the natural environment and the irreplaceable cultural legacy of John Clare.	2/17/2017 6:14 PM
6	I fully support the views expressed in the Plan regarding recreation and visitors to the area. It is appropriate to sensitively develop and protect our important historic and environmental sites.	2/17/2017 1:57 PM
7	Policy CRV1 Rural Recreation and Sport, Including the Future of Woodlands - There is no objection to the intention of this policy, other than reiterating the above comments that the site should not be included as a Local Green Space. However, it is recommended that the second paragraph in the policy is a little unclear as it is currently worded. Could it be amended to clarify what type of development it refers to and also how other policies in the plan should be applied, e.g. should CH1 and 2 apply or is this an exception. PCC would be happy to assist with the rewording of this. Policy CRV2 Footpaths, Cycleways, and Bridleways - There are no comments on this policy. Policy CRV3 Visitor Access - The wording at present is a little unclear and would benefit from a slight rewording as follows: "Development proposals that promote visitor access and any necessary support services to Nene Park rural estate will be supported providing they..."	2/17/2017 10:40 AM
8	As with comments under Policy Area 2, with the recent plans for Woodlands changing should the following sections be reviewed; 6.4.1, 6.4.2 and 6.4.4 and Policy CRV1 Rural Recreation and Sport, including the future of Woodlands	2/17/2017 9:26 AM
9	Many visitors come to the area for restoring walks	2/16/2017 9:38 PM
10	Possibly make more of Castor and Ailsworth being the 'lungs' of Peterborough - it was the Development Corporation who had the foresight to create Ferry Meadows and the villages are a natural part of that.	2/16/2017 6:51 PM
11	I support the policy content	2/15/2017 8:36 PM
12	I support the policy content	2/15/2017 8:32 PM
13	CRV1 and CLU3 The only specific comment the Trust would put forward is clarification of policies CLU3 and CRV1 and Map 4 in relation to Woodlands, Splash Lane. The text in CLU3 refers to the value of the sports pitches at Woodlands and in recognition of this that no development would be permitted without exceptional circumstances. Map 4 showing local green space includes the pitches and also the building of woodlands along with curtilage and areas of hard standing. Text in policy CRV1 states that limited development of Woodlands would be supported. Map 4 needs to be corrected to represent this by only highlighting the sports pitches as local green space and excluded the eastern third of the site - as per the plan provided to the Clerk for information. We are happy with the proposed designation for the cricket pitches, but not for the Woodlands building and curtilage including the car park, tennis court, bowling green and all weather pitch to be included within this designation. We have welcomed the opportunity to feed in to this plan and continue to be open to contribute	2/15/2017 2:57 PM
14	That I support the content of my parish Neighbourhood Plan	2/15/2017 1:51 PM
15	I support the content of my parish neighbourhood plan.	2/14/2017 9:35 PM
16	CRV1 Although I support Woodlands being developed into a sporting facility for the village and local clubs etc it is important to recognise the impact too much involvement with outside clubs will bring to the village. This will be particularly evident to Splash Lane but will impact the village as a whole.	2/14/2017 8:09 PM

17	CRV1-We should promote further the recreation use of the villages ie walking,cycling,horseriding,angling and the readily available sporting facilities at the Woodlands Centre and the Cricket ground.Whilst reminding the Council at all times to foster the recreational asset they have on their doorstep. We should endeavor to keep the few green 'wing' fields in the village undeveloped particularly field that are elevated sites. Any development that rises above the existing horizon view of the villages should be objected to.	2/14/2017 11:32 AM
18	support the plan as written	2/14/2017 11:26 AM
19	We support the content of our parish neighbourhood plan	2/13/2017 8:46 PM
20	I support the position of Protect Rural Peterborough as detailed in their letter of 8/2/17	2/13/2017 6:54 PM
21	We fully support the content of your parish Neighbourhood Plan	2/12/2017 6:11 PM
22	CRV1: I appreciate that to make Woodlands a "going concern" again some of the facilities may need to be offered to sports clubs outside the village. Care will be needed that this use is not excessive generating large volumes of traffic that the village roads will be unable to cope with.	1/31/2017 10:12 AM
23	I agree with all points in the policy statement	1/29/2017 2:26 PM
24	The Nene Valley and it's surrounding area have long been the pride of Peterborough. Even in the 1980 when major town planning was in full swing, the formation of Ferry Meadows and the protection of the river have long been ` priority for Peterborough. The main reason visitors come here is because of its natural, rural beauty.	1/17/2017 2:36 PM
25	Our area is fantastic for recreation and visitors. It is or could be Peterborough's playground. Its many footpaths and bridleways need protecting and enhancing. I support policies CRU1, CRU2, CRU3	1/17/2017 1:11 PM
26	Agree with all policies. A moderate level of access can be encouraged to assist Peterborough residents enjoy the wildlife and fauna	1/17/2017 9:58 AM
27	I agree with the policy	1/16/2017 5:45 PM
28	6.4.1 CRV 1, 2, 3 Agreed	1/16/2017 5:24 PM
29	CRV1 Strongly agree and would like to see Woodlands contributing to the health and wellbeing of the community, both physical and social needs. CRV2 & £ Strongly agree	1/14/2017 5:01 PM
